

Hello from Arkansas HOSA,

We acknowledge your expertise in your field and would like to invite you to be a judge for the 2025 HOSA State Leadership Conference this February. Students have been working hard on learning valuable skills that will be put to the test at the State Conference, but we need experts to properly evaluate students' readiness for the "real-world" of healthcare. There are several opportunities to judge this year, including both in-person and virtual options. Some contests require asynchronous, virtual pre-judging from February 4th to February 8th, 2025 that can be evaluated at your convenience. Other events require judges to attend our in-person conference on February 24th at Hot Springs Convention Center. In-person competitions happen in rounds, and most judges can expect to be at the Conference from either 11 am to 1 pm or 2 pm to 4 pm.

If you are willing and available to support the future of healthcare, please sign up using this [link](#) for the competitions you would like to judge, whether virtual or in person. More information and training will be sent via email in early February.

We appreciate your time and commitment to HOSA-Future Health Professionals.

Thank you,
HOSA CMS & Cathy Gunter
